The Clearing House’s RTP® network is a better way to instantly send and receive money in the digital age. Financial institutions and businesses have put RTP’s capabilities to work to create complete and exceptional payments experiences:

**Immediate and Certain**
Each payment is cleared and settled in real-time, 24/7, and confirmed immediately so all parties can be certain that the transaction is complete.

**Comprehensive**
A two-way communication thread between senders and receivers is loaded with useful information, which makes the status clear and right where you need it – no loose ends to track down.

**In Control**
Senders and receivers are in control (e.g., Billers determine when to send payment requests; Payers decide whether, when and how much to pay). Innovative service providers create the user experience for their offerings.

**Proven**
The RTP network is in full production and operated by The Clearing House, a trusted, secure provider of payments – so you can be confident RTP is safe and will work.

**How RTP capabilities are being used today**
- Account-to-Account
- Gig Economy
- Business-to-Business
- Loan Funding
- Payroll
- Merchant Funding
- Wallets
- Insurance Claims
- Title Companies
- Cash Concentration

**RTP Resources**
Visit The Clearing House website for RTP information and resources:
- Volume estimator
- Videos and demos
- Documents
- Event schedule
- Podcasts
- Partners and participants
- Articles and press releases
